Dear Ms. Tosh

**RE: AMENDMENT APPROVAL FOR DTLP160001**

In response to an amendment dated January 10, 2008 for DTLP160001, Sustainable Resource Development (SRD) staff have conducted a review, and grant **approval** of the amendment with the following conditions:

1. All original conditions from the Final AOP approval dated November 1, 2007 are to apply.
2. Prior to planned operations commencement for block 688, DMI is to submit for approval to the appropriate Forester/ Forest Officer a detailed block plan as per section 1.3, appendix 2 of the 1994 Operating Ground Rules. The detailed block plan must adequately address how understory protection measure will be implemented in the block.
3. Be advised that approval of this final AOP does not transfer the accountability for the plan or its implementation from the Organization or the submitting Registered Forest Practitioner (RFP) to SRD or its staff.

Thank you for your adaptive planning measures and your commitment to work with the FMA Holder to ensure adequate stand utilization. Should you have any questions or concerns regarding this approval, please contact Derek Bakker at (780) 719-0233.

Sincerely,

Cal Dakin, RPF  
Acting Peace Area Forestry Manager
