

DAISHOWA-MARUBENI
INTERNATIONAL LTD.

2nd / 3rd Class Power Engineers

An opportunity exists for Power Engineers with pulp mill experience to join our Power and Recovery Department at Peace River Pulp Division.

As a **Power Engineer**, you will be a member of our progressive, non-unionized team environment. After completion of our comprehensive training program, you will participate in the rotational job roles in the Power and Recovery Department, including providing relief coverage for the shift engineer. Your progression through the Department will be based on your ability to learn and your motivation and desire to advance to the highest level of our technical pay-for-skills program.

At Peace River Pulp, you will be working with a Black Liquor fired Recovery Boiler with a steaming rate of 305 tons per hour; Wood fired Power Boiler with a steaming rate of 160 tons per hour, 44 MW steam turbine, Black liquor evaporators, Lime Kiln, Raw Water, and Waste Water treatment plants. PRPD is capable of producing all of its electrical needs as well as additional power that is sold to contribute to the power supply for Albertans.

You will demonstrate high performance levels in the following competencies:

INITIATIVE

- Respond positively to unforeseen changes and act quickly, drawing on appropriate resources and experiences.
- Offer ideas to address current situations or issues.
- Start and carry through on projects with drive, motivation, and initiative.

COMMUNICATION:

- Adapt content, tone, style to maintain team relations.
- Communicate clearly and credibly.
- Listen actively.

ANALYTICAL THINKING:

- Assimilation of information from production areas.
- Identify critical operational challenges; draw logical conclusions providing options and recommendations.
- Analyze complex process issues; identify connections between situations that are not obviously related.
- Think several steps ahead in deciding on best course of action, anticipating outcomes.

POSITION CRITERIA:

The ideal candidate will be a graduate of a recognized Power Engineering program with work experience in a Kraft pulping environment. (DCS panel experience will be considered a strong asset). The ideal candidate will have previous hands-on experience with the Honeywell TDC 3000. The successful candidate is required to be certified in Alberta under the Alberta Boilers Safety Association "ABSA".

- 2nd or 3rd Class Power Engineering Certificate of Competency preferred (include file certificate number)
- High School Diploma or equivalent, with successful completion of Math 20 and Physics 20
- Previous pulp mill/industrial experience (preferably Kraft)
- Good computer skills
- Team focused and self motivated with good interpersonal and communication skills.

BENEFITS OF WORKING WITH PRPD:

- Salary dependent upon experience
- Overtime paid at double the rate
- Power Engineering ticket premiums
- 14 working shifts a month – home every day
- Medical, Dental, Vision, and Life Insurance
- No probationary period
- Optional matching RRSP program
- Above average vacation package
- Paid sick time
- Relocation package available
- Interest free 2nd Mortgage Plan to \$40,000
- Educational Assistance for ticket advancement
- Medical Travel
- Non-union environment
- Ability to become proficient in all areas quickly
- Plus many others benefits!

APPLICATION PROCESS:

Interested individuals should forward cover letter and resume outlining detailed technical skills and work experience in applicable or related situations. Please include as much information as necessary for the Recruitment Committee to be able to determine competence based upon experience and performance. These areas will be explored in the formalized interviewing process. As well, please include the names of at least two work-related references, to PRPD's Human Resources Department by **4:30 p.m., February 1st, 2010**.

E-mail: career@prpddmi.com or fax (780) 624-7040 or apply online at www.dmi.ca/careers/index.html.

Please quote competition number CN0925.

LIVING IN THE PEACE COUNTRY

Nestled within the majestic valley of the Peace River, AB, the Town of Peace River enjoys one of the most beautiful physical settings in Alberta. The 6,315 citizens of this community are "Peace River Proud", with the town boasting a full range of adventure and recreational activities. As well as excellent educational facilities, cultural events, clubs and restaurants, there are also fitness activities - indoor pools, an arena, curling rink, ski hill, cinema and several kilometres of groomed walking/cross-country ski trails along the river – something for everyone!
